CRETA

Black and white are two infallible colours. And their potential is even greater if we put them together. Creta stands out for being a polished effect porcelain tile in black with creamy veins in an off-white colour that make its design even more special.

In order not to have to give up the technical benefits of porcelain tiles, including durability and resistance, Creta is available in three different formats.

El blanco y el negro son dos colores infalibles. Y su potencial es todavía mayor si los juntamos. Creta destaca por ser un porcelánico efecto pulido en color negro con cremosas vetas en un color blanco roto que hacen que su diseño sea todavía más especial.

Para no tener que renunciar a los beneficios técnicos de los azulejos porcelánicos, entre los que destacan su durabilidad y resistencia, Creta está disponible en tres formatos distintos.

OYSTER

Wood is reinvented with this collection that adds touches of colour to one of the favourite materials for interior design and architecture projects: porcelain wood. Oyster allows us to dream of all kinds of rooms, from Nordic interiors in white and grey tones to warm huts in the Alps or bold blue wood on an island paradise.

La madera se reinventa con esta colección que añade toques de color a uno de los materiales preferidos para los proyectos de interiorismo y arquitectura: la madera porcelánica. Oyster nos permite soñar con todo tipo de estancias, desde interiores nórdicos en tonos blancos y grises a cálidas cabañas en Los Alpes o atrevidas maderas azules en alguna isla paradisíaca.

RONIN

With Ronin, we are clearly committed to authenticity. It is an honest, careful and emphatic collection of porcelain tiles with a wood look that gains in beauty thanks to its perfect imperfections. It is a perfect porcelain tile for modern projects that want to give a rustic and minimalist touch to the rooms.

The almond colour is perfect to achieve warm and cosy atmospheres. Our other options, in grey, walnut and oak, simulate darker woods and are characterized by a greater expressive force.

Con Ronin, apostamos claramente por la autenticidad. Es una colección honesta, cuidada y rotunda de porcelánico con aspecto de madera que gana en belleza gracias a sus perfectas imperfecciones. Es un azulejo porcelánico perfecto para proyectos modernos que quieren darle un toque rústico y minimalista a las estancias.

El color almond es perfecto para lograr ambientes cálidos y acogedores. Nuestras otras opciones, en color grey, nogue y roble, simulan maderas más oscuras y se caracterizan por una mayor fuerza expresiva.
