Various generations of artists have dedicated their talents to painting ceramics. This is a deep-rooted, traditional craft that has continued through to today. AQUA pays tribute to all those artists in recognition of their contributions to the ceramic industry and the distinctive hallmark that they create.

AQUA's floral motifs on a white background conjure up all the beauty of traditional Mediterranean hand-painted ceramics, rounded off by a series of field tiles that complement the decorative ones to perfection, opening up broad-ranging decorative possibilities. The white, brown, blue, green and anthracite colours of this 6x24.6 porcelain wall tile collection can all be inter-combined.

Varias generaciones de artistas han volcado su talento en la elaboración de piezas cerámicas pintadas a mano. Un arte muy arraigado que perdura a día de hoy. AQUA es un homenaje a todos estos artistas y el reconocimiento a su impulso y diferenciación de la industria cerámica.

Un conjunto de piezas con motivos florales sobre fondo blanco que reproducen la técnica del pincelado manual característico en nuestro entorno. Se completa la oferta de la colección con las piezas de base que se complementan a la perfección con las piezas decorativas, dando así múltiples posibilidades decorativas. Un revestimiento porcelánico de 6x24.6 que podemos combinar entre sus tonalidades white, brown, blue, green y anthracita.
